We are in receipt of a view of the new Fiske House, Old Orchard Beach, Maine, built upon the site of the old one, but much enlarged and beautified. We have the plan of the entire structure, and we must pronounce it perfect. Among the many improvements, that in regard to bathing strikes us very favorably. Many persons, especially elderly people, lack the strength, or the nerve to bathe in the sea, and thus they lose half the benefit of a sojourn at the seaside. But this Fiske House has provided for hot and cold sea baths inside. The abundant supply of pure spring water is another improvement that is of much value to us "mountaineers." We love our rocks and rills. Convenient living is another attraction, and is to be had at times, and we know where we will sit when we say that all about are delightful drives, cool, shady and attractive. The moment you have thrown off your duster, and taken a survey of your well appointed room, you feel at home. C. F. Fiske knows how to care for guests, and so does his pleasant little lady. We bespeak for him a crowd, from "all along the line" of the Lamotte Valley.
